"In Australia, Jatoil Limited announced that it has achieved production of 200 tonnes of crude jatropha oil. Jatoil's 70%-owned Central Java joint venture, PT Jatoil Waterland, is consistently producing increased quantities of CJO, which is in high demand as airlines strive to meet mandatory new European Union carbon dioxide emission regulations."

"Mission NewEnergy announced that it completed its second commercial sale and shipment of Jatropha oil to a major European customer, for use as a sustainable fuel. This shipment, comprising 60 tonnes of unrefined Jatropha oil, was three times the size of its last Jatropha oil sale. At approximately US\$119 per barrel CIF Europe, the sale price represented a 34% premium to prevailing crude oil prices."
