Plan & Prepare for the Opening of Myanmar Telecoms Market

This update is led by a team of ICT experts with extensive Myanmar and regional experience. Besides industry review, the briefing provides forecasts on future trends and expected developments thus enabling you to:

- **Attain overview** of the demographics of the country and how this could affect the telecom market and obligations of investors.
- **Gain insight** into the ongoing Nation Building processes that will directly impact Telecom investments.
- **Understand** the landscape of Local Companies that are currently involved in Telecoms and ICT Developments today and their views for the future.
- **Know** who the main players are in the current environment and the ongoing activities and initiatives for Telecom Sector Reform.
- **Participate** in group Interactive discussions that can be used to develop and propose new regulatory strategies and structures that could facilitate growth, competition and balance investor risk in a purely Myanmar Context.
- **Discover** the 'actual' opportunities that are available in the Telecoms and ICT sector today in Myanmar and understand the strategies that could be used for effective market entry.
- **Learn** how New Technologies & Infrastructure development strategies can reduce investment risk whilst enhancing Network Capacity, Coverage, Value Added Services and Subscriber Growth rates.

Gain in-depth industry knowledge to prepare your team for greater opportunities! What's more, it offers extensive business networking and new contacts from global players and potential local partners. **Sign up with your team now to secure your seats!**

You will network with:

- Strategic Planning
- Project Planning
- Corporate Users
- Carriers and Manufacturers
- Investors
- Financial Analysts
- Consultants
- Engineering Support
- Managers from telecom and ICT industries
- Potential local partners
