Consultant - Transport Infrastructure and Services*
- 12:10 Final discussion followed by Closing Lunch
- 13:40 End of Conference

Separately Bookable (Optional) Site Visit to Lafarge Chilanga Cement Plant (19 March 2014, 14:00 - 17:00)

Chilanga Plant is a fully integrated plant and is situated 15 km south of Lusaka central business district, in an area called Chilanga District. It is a Chinese plant and was built by Sinoma. It has a clinker capacity of 2,000 tons per day. Thus its installed cement capacity is 830,000 tons per annum. The plant produces both ordinary portland cement and composite cement. The cement brands that Lafarge Zambia produces are Mphamvu, Powerplus and SupaSet. Lafarge Zambia has another cement plant which is also fully integrated and is situated in Ndola 320km north of Lusaka. It has an installed cement capacity of over 450,000 tons per annum giving the company a total capacity of 1,300,000 tons.

14:00 Assemble at hotel lobby
14:10 Depart Hotel
14:40 Arrive at site, plant introduction/tour & refreshment
16:15 Depart for hotel
17:00 Arrive at hotel
