16th MENAPET

(MidEast & North Africa PET Resin & Polyester Trade, Recycling & Technologies)

4 – 5 March 2015
Sharm el-Sheikh, Egypt

“New Capacities & Opportunities for Resin Trade in the MENA Region”

***“Advances in PET Conversion Technology:
Striking a Balance between Cost & Preform Design”***

“The Indo-Egyptian JV, Egyptian-Indian Polyester Company (EIPET), for PET bottle resin plant started in January 2014 in the deep sea port on the Red Sea at Ain Sokhna has added combined capacity for 420,000 tonne per annum (TPA). This plant is the first of its kind in North Africa and one of the largest such units in the Middle East. The facility will meet Egypt’s domestic demand, which is covered by imports, and will facilitate exports of PET.”

Jun 2014, Modern Plastics & Polymers

Emerging markets such as the Middle East & North Africa is driving the growth in PET packaging. New capacities, developing recycling sector and innovations in packaging design is shifting the PET packaging value chain to identify opportunities amid oversupply challenges.

16th MENAPET Vibrant Sessions:

- Egypt’s position in the PET trade route: from North Africa to Europe
 - Evolving global PET outlook: Will it be a more bullish market?
 - Technical trends and developments in PET conversion technology
 - Innovations in beverage and food packaging and impact on PET
 - PET in non-food applications, thermoforming, polyester, etc.
