11th Middle East CemenTrade

4 - 5 Oct 2016 | Dubai, UAE

“Identify New Opportunities & Sustain Market Share in Slow Economy”

Plummeting oil price has resulted in the slowing of the construction sector in the Middle East. However, the GCC region's population is expected to grow at a CAGR of 2.5 per cent between 2014-18 to reach 56.9m, and as such, form a solid base for regional cement demand expansion over the mid to long term (source: Trade Arabia). In the face of adversity, the cement industry needs market opportunities to maintain high output and margins.

How will lifting of the export ban in Saudi Arabia impact trade balance? With more supply coming from Iran and Turkey, what is the future of cement and clinker trade? Will domestic consumption in UAE mitigate the overcapacity scenario in the emirates?

Returning to Dubai and for the 11th consecutive year, CMT's Middle East CemenTrade will be the platform for industry analysts and players to network and review pressing issues in a complex market.

Highlights

- Market outlook: **UAE, Saudi Arabia, Egypt, Turkey, Iran, Pakistan, India**
- Export and trade opportunities in the region and global analysis
- Sustainable cement, cementitious products and green concrete
- Freight market outlook, logistics and supply chain challenges

And more!
