

PET

Sheets & Thermoforms

19 - 20 Feb 2018 | Gatwick, United Kingdom

“Growing demand for PET in Thermoforming Applications”

“Materials innovations, packaging design trends and sustainability issues”

Key Highlights

- Recycling challenges of PET trays & finding new markets for the recycled materials
- Advances in machinery and form-fill-seal technologies
- Extended shelf life technologies for fresh food packaging
- Biobased and compostable PLA material for making thermoformed containers
- Perspective from thermoform producers, packaging designers, recyclers
- Innovative sustainable solutions of lidding films for ready-to-eat tray meals

Why attend

Encouraged by the emerging demand of PET in thermoforming applications, CMT brings you the latest in its PET series and the only most important event focusing on PET thermoforming where Europe's leading thermoformers converge and network.

You Will Network With

- Thermoformers • OEM's
- Machinery & Tooling Producers
- Film and Sheet Suppliers
- Resin Producers • Recyclers
- Packaging companies
- Supermarket retailers • Brand owners and end users from the food & beverage, home and personal care, medical & pharmaceutical industry
