

FEES

Fees per person	€
IN-PERSON (per person)	
1-2 delegates	1395
3 or more delegates	1195
Bundle: • 23rd GEPET & Polyester (Recycling & Sustainability) • 4th Recycled Packaging for Food Contact	1895
VIRTUAL (per login)	
1 conference	1195
Bundle: • 23rd GEPET & Polyester (Recycling & Sustainability) • 4th Recycled Packaging for Food Contact	1695

DAY 1 - 24 MAY 2023, WEDNESDAY

- 08:00 **Chairman's Remarks**
- 08:05 **Revision of the EU Packaging Waste Directive**
Dr. Wolfgang Trunk, Policy Officer, DG Environment, Veolia Environmental Services
- 08:30 **Circular by Purpose**
Perreau Benoit, Markets & Clients Director - Solid Waste, Veolia Environmental Services
- 09:00 **Drivers for FMCG companies towards more sustainability for packaging**
Hans Van Bochove, Chairman, EUROOPEN
- 09:30 **viscoZERO recycling technology for PE, PP, PS and PET**
Markus Fellinger, General Manager Viscotec, Starlinger & Co. / Viscotec
- 10:05 Discussion followed by Morning Coffee
- 10:40 **Panel Discussion: Collaborating along the plastics chain across different sectors towards a common goal**

Moderated by:
Antonello Ciotti, President, Petcore Europe

Panelists:
Hans Van Bochove, Chairman, EUROOPEN

Perreau Benoit, Markets & Clients Director-Solid Waste, Veolia Environmental Services

Hannah Drew, Global Circular Packaging Manager, Aldi Sud

Alessandro Pasquale, Chief Executive Officer, Mattoni 1873

- 12:00 Discussion followed by Lunch
- 13:50 **Chairman's Remark**
- 14:00 **Sustainable Packaging Solutions**
Marisa Alves, Chief Procurement Officer, Intraplas SA - Indústria Transformadora de Plásticos
- 14:40 **Analytical challenges & migration test to determine the contamination level of PCR (paper & plastics) used behind functional barriers**
Dr. Thomas Gude, Deputy Head Food/Non-Food Division, Swiss Quality Testing Services
- 15:10 Discussion followed by Tea
- 15:50 **Accelerating the transition to refillable and reusable packaging in the EU**
Fernando Rodriguez-Mata, Director General, New European Reuse Alliance
- 16:20 **Innovations in food grade rPP and recycled flexible films**
Prof. Edward Kosior, CEO and Founder, Nextek
- 16:50 **Complying with US FDA for food contact materials with focus on packaging with recycled content**
Sean Fischer, Regulatory Review Scientist, Center for Food Safety and Applied Nutrition, U.S. Food and Drug Administration
- 17:00 Discussion and Close of Day 1

DAY 2 - 25 MAY 2023, THURSDAY

- 08:50 **Chairman's Remark**
- 09:00 **The Recycled Plastics Regulation 2022/1616: what does this mean for recyclers?**
Rachida Semail, Partner, Keller & Heckman

- 09:45 **How to improve the reliability of recycled plastics for food contact**
Dr. Lionel Spack, Senior Food Contact Materials Expert Nestle Suisse
- 10:20 Discussion followed by Morning Coffee
- 10:50 **The use of PCR plastics for Cosmetic Packaging – The work of CosPaTox**
Martin Foe, Head- Global Regulatory Affairs F&B, Beauty, Home Aptar Group
- 11:20 **Chemically recycled high quality polyamide for food contact**
Dr. Paul Neumann, Business Development Circular Polyamide BASF SE
- 11:50 **Transforming non-food polyesters to food grade quality monomers – potentials of back-to-monomer recycling**
Prof. Dr. Stephan Scholl, Head of Institute, Technische Universität Braunschweig - TU Braunschweig
- 12:20 **Food Contact regulations in the UK with respect to recycled content packaging**
- FSA's role in meeting the responsibilities introduced by New Regulation 2022/1616 and how UK packaging operators can comply
Timothy Chandler, Senior Policy Advisor - Food Contact Materials, Food Standards Agency
- 12:50 Discussion followed by Lunch . End of conference.

The European Commission's New Regulation (EU) 2022/1616 on recycled plastic materials and articles intended to come into contact with foods replaces the previous Regulation (EC) No. 282/2008.

What does this new regulation mean for recyclers? Will it level the playing field and help develop the market for recycled plastics further beyond rPET which is already quite widely used in food packaging today?

Who will be auditing recyclers outside EU with food grade approval to assure compliance on origin, collection methods and quality control?

From 10 July 2023, plastics containing recycled plastic manufactured with a suitable recycling technology may be placed on the market.

What are these suitable technologies? Where will chemical recycling stand? Will chemically recycled plastics account towards the targets?

Beyond PET, it is expected that availability of other types of recycled plastic polymers will increase on the market in the coming years, which will benefit from the EU legal framework now in place for such innovation.

While EFSA is more prevalent in Europe, FDA is more widely used internationally. Obtaining an EFSA positive opinion, the process, including traceability of feedstocks is challenging for some suppliers and is not a requirement of FDA. Many states in the US have different recycled content mandates, and there is a need to drive market demand and push for harmonisation.

How about the UK? Will the new EU regulation compel changes in the UK standards?

Join us in **Porto** at our **4th Recycled Packaging for Food Contact** conference that brings experts in the field to dive deeper into these regulations and the impact it will have on the packaging sector.

Key highlights:

- Analytical challenges and migration test to determine the contamination level of PCR (paper & plastics) used behind functional barriers.
- Transforming non-food polyesters to food grade quality monomers – potentials of back-to-monomer recycling
- Accelerating the transition to refillable and reusable packaging in the EU
- Innovations in food grade rPP and recycled flexible films
- The Recycled Plastics Regulation 2022/1616: what does this mean for recyclers?

- Complying with US FDA for food contact materials with focus on packaging with recycled content
 - Food Contact regulations in the UK with respect to recycled content packaging
- And many more.

Register with hafizah@cmtsp.com.sg.

The conference will share a half-day session with **23rd GEPET & Polyester (Recycling & Sustainability)** which will take place on 23-24 May 2023.

More details of that conference can be viewed here:
