

ORGANISED BY

Centre for Management Technology®
into our 40th year

FEES

Fees per person(In person)	€
1-2 delegates	1295
3 or more delegates	1095
1 delegate(Virtual)	1095
Optional Activity:	
Video Recording (available after event)	195

EXHIBITOR / SPONSOR

Talk to us!

This event is an excellent platform to promote your organization to influential players and investors in the industry. Sponsorship opportunities available include Corporate, Exclusive luncheon & Cocktail sponsor.

Exhibition / catalogue display can be arranged upon request.

4 - 5 JULY 2023
ROTTERDAM, NETHERLANDS

3RD RECYCLABLE MONO-MATERIAL PACKAGING SOLUTIONS

New material development & processing technology for the evolving Mono Material movement in both food / non-food packaging

In both flexible and rigid packaging, the trend is to replace multimaterial laminates, coextrusions and "composites" with mono-material structures.

The goal is to increased recyclability and hence greater volumes of plastics overall would thereby be available for recovery and reuse.

Key Highlights:

- Developments in materials and processing technology
- Use of recycled grades in mono material packaging
- Game changing high density PE grades specifically for the biaxially oriented film process
- Shifting sands in EU sustainability regulations including impact on mono material caps & closures
- Machine direction blown PE film for pouches
- New de-inking technologies for multilayer flexible films to achieve higher recycling rates

Despite emerging technologies to propel mono material packaging solutions, brandowners and packaging companies are still slow in adapting. This is because

multi material packaging that are made of different types of polymers do provide enhanced barrier properties, stiffness, flexibility much needed for stand up pouches, bulky pet food bags for eg.

What are the recent innovative separation & delamination techniques for Multilayer / materials Plastics Packaging?
Can design for recycling reduce multilayer's complexities?

More announcements and full agendas to come...
