RECYCLING MULTILAYER PACKAGING

5 - 6 JULY 2023 / BARCELONA, SPAIN

Multilayer films for food packaging including stand up pouches and flow wrappers are made of different types of polymers for improved barrier properties, stiffness, flexibility etc.,

However, they represent a challenge for existing recycling systems, confronting circular economy principles.

Key Highlights:

- What is the future of recycling technologies for Multilayer / materials Plastics Packaging?
- Can design for recycling reduce multilayer's complexities?
- What are the new de-inking technologies for multilayer flexible films to achieve higher recycling rates?
- Innovative separation / delamination techniques.

And many more.
