NETWORKING RECEPTION SPONSOR AND EXHIBITOR

EXHIBITORS

- 08:00 Registration
- 08:50 **Chairman's Introduction**
- 09:00 **Plastics industry in Vietnam & current environmental regulations affecting the industry (EPR, Eco Labelling)**
Huynh Thi My, General Secretary, Vietnam Plastics Association
- 09:20 **Current status and recommendations for eight core policies to promote the circular economy of plastic waste in Vietnam**
Vuong Duc Hoang, President, VietCycle
- 09:40 **Revolutionary technology to boost Southeast Asia PET bottle recycling rates, beginning with Vietnam**
Max Craipeau, Founder, BOTOL
Voted #1 most innovative plastic recycler in Asia in 2022
- 10:00 Discussion. Followed by Coffee Break
- 10:40 **Vietnam's first bottle-to-bottle recycling project**
 - Market acceptance
 - Collaboration in the supply chain including collection & sorting*Le Anh, Sustainability Director, Duy Tan Plastic Recycling*
- 11:00 **Philippines first food grade bottle-to-bottle recycling facility – an update**
 - Improving collection and recycling rates in Philippines towards a truly circular economy*Atty. Marc Cruz Cox, Stakeholder Relations Director, Coca Cola Beverages Philippines, Inc*

Director Petvalue Philippines Corporation

- 11:20 **Nestlé Philippines: Pioneering large scale plastic neutrality in the country**
Maria Christine Garcia, Sustainability Lead, Nestle Philippines Inc.
- 11:40 **Topic to be advised**
David Hehenberger, Head of Product Management, NGR - Next Generation Recycling

Raimon Wong, Managing Director, NGR Malaysia
- 12:00 Discussion. Followed by Lunch.
- 13:50 **Future expansion plans in driving plastics circularity beyond PET**
 - Our rPET recycling production & expansion plans
 - Diversifying into flexible low value plastics*Dian Kurniawati, Director, ALBA Tridi Plastics Recycling Indonesia*
- 14:20 **PET Bottles, Trays and Fibres**
 - EREMA's one- stop shop for food grade rPET up to 6t/hr.*Christoph Woess, Business Development Manager, Erema Engineering Recycling Maschinen und Anlagen*
- 14:50 **Sustainable Sustainability for brand owners. How to collect and use recycled content in our packaging at scale and affordably.**
Dr. Casper Durandt, Director Sustainable Packaging and Climate Protection, The Coca-Cola Company

DAY 1 - 8 NOV 2023, WEDNESDAY

15:10 Discussion. Followed by Tea Break

15:50 **Cost-effective chemical recycling process for recycled PET of highest purity**
Vivek Tandon, Founder, Revalyu Resources

16:20 **viscoZERO technology for recycling of PE, PP, PS & PET**
Andreas Fuchs, Area Sales Manager, Starlinger & Co. / Viscotec

Markus Fellingner, General Manager Viscotec, Starlinger & Co. / Viscotec

16:50 Discussion. End of Day 1.

17:00 Networking Reception for Speakers & Delegates
 Sponsored By:

09:50 Discussion. Followed by Coffee Break.

10:30 **B2B food grade for PET recycling**
Ted Kao, Vice President - Sales, Chang Woen Machinery

11:00 **Safety of food contact paper & plastics packaging including recycled plastics – New findings & potential concerns**

Dr. Sukis Su, Senior Engineer, IQTC

11:20 **Sustainable packaging through design for recyclability**

- mono material and circular polymer both from ocean bound used plastic and municipality used plastic

Francisca Shandy, Senior Manager Sustainability Strategy and Circular Economy, SABIC Asia Pacific

11:50 **Recyclable mono material flexible film for sustainability**

Kamonchanok O Rak Zaii, R&D Manager, AJ Plast Public Company Limited

12:20 Final Discussion. End of Conference followed by Lunch.

DAY 2 - 9 NOV 2023, THURSDAY

08:30 **Chairman's Introduction**

08:35 **Europe PET / rPET market**
 • Will Europe absorb all of Asia's rPET capacity
 • Volatile prices of raw materials, competition from other packaging materials, and environmental concerns
Gareth Lamb, PET Market Analyst, Czarnikow Group Limited

09:00 **Converting low value hard-to-recycle flexible plastics into new products**
Darshit Shah, AGM - Sales & Business Development, Lucro Plastecycle

09:25 **Billion bottles & counting: New age technology innovations in rHPDE and rPP recycling**
 • Washing technology to eliminate contaminants
 • Mapping technology to integrate informal recyclers
Mani Vajipey, CEO, Banyan Nation

Progress on plastics circularity solutions across the supply chain to attain high quality food grade recycled materials

Nearly 90% of plastics circularity capital in emerging markets went to Asia, mostly to recycling and recovery

~ March 31, 2023 – Eco-Business.com

Lack of capital, collection infrastructure & sorting facility remains a significant barrier to creating a profitable plastics circularity market.

However, positive changes are happening now. Companies and brandowners that need to meet their sustainability goals are pushing for high quality recycled plastics which drives further investment into technology solutions across the supply chain.

New data shows that global investors injected over US\$4.1 billion into such solutions in emerging markets across the world over a five-year period since 2018, with Asia receiving the bulk of the investment.

In June 2023, Asian Development Bank (ADB) signed a \$44.2 million blue loan with PT ALBA Tridi Plastics Recycling Indonesia, to establish a polyethylene terephthalate (PET) recycling facility in Central Java.

Despite the deployment of capital into circular economy solutions from government funding and private capital investments, we have to be realistic that Asia as a consumption-driven economy will continue to produce and consume plastics.

Governments & the plastics sector (the entire value chain from plastics production to recycling and recovery solution providers) need to come together to define clear goals, regulations to unblocking the challenges for a sustainable, circular plastics economy.
