GREEN STEEL APAC

15 - 16 NOV 2023 | PERTH, AUSTRALIA

Key Highlights:

- Policy support & push for sustainable steel supply chain.
- Carbon markets & climate-aligned financing towards green steel.
- Greening the upstream mining operation, in iron ore & etc.
- Alternative (interim) fuel resources to wean-off coal/fossil fuel reliance -hydrogen as the eventual solution; what about in the short term transition?
- Decarbonising technologies/solutions in steel production.
- Towards carbon reduction - carbon capture (CCUS) & etc.
- Partnership/collaboration to achieve the eventual net-zero in supply chain.
