“European wood pellet demand on the rise from new markets and industries”

7TH ANNUAL **BIOMASS**
TRADE & POWER EUROPE 2024

Growing wood pellet demand from new sectors outside of the energy industry is developing at pace and boosting producer confidence for long-term demand.

A challenging period for producers on both sides of the Atlantic tackling soaring inflation and raw material costs appears to be easing as market confidence over the future of biomass with carbon capture and storage begins to take shape across Europe.

New demand for wood pellets for power generation in Poland is developing as biomass continues to displace coal across Europe.

The search for new supply streams is developing to replace Russian exports and keep pace with emerging markets and opportunities for the wood pellet sector.

supply chain and many more! Take this opportunity to meet up with leading cement industry peers in Abidjan!

Key Highlights & What to Expect:

- Detailed analysis of the Wood Pellet & Wood Chip Markets
- Latest developments on Biomass with Carbon Capture and Storage
- Panel discussions from industry experts covering latest developments
- Key presentations from utilities, producers & traders
- Insight on emerging markets for biomass
- Overview of the European Heating Markets
- Coverage on latest key changes on policy and sustainability
