# FUNCTIONAL FIBER-BASED MATERIALS & PACKAGING 2024

21 - 23 OCT - PRAGUE

VIEW ONLINE

SCAN ME

## PPWR setting the boundaries for development & implementation of the functional fibre-based packaging

### Key Highlights & What to Expect:

- Clarifications on PPWR, SUPD & Plastic Tax - how are they connected
- What are the practical implications from the latest legislation updates, on packaging & materials? Which formats & materials are likely to benefit from PPWR; which one are likely to suffer?
- How will the EPR & Recyclability Performance Grading be applied on various packaging materials/types?
- Developing functional but "plastic free" packaging: what are the opportunities & benefits derived from adapting or switching fiber based packaging?
- What do the current barrier technologies have to offer, towards plastic free & good recyclability?
- What are the gaps in the packing & filling technologies to enable transition from plastic to fibre-based options?
- What are the solutions for paper & board, molded fiber & conversion?
- From high barrier rigid plastic to fiber based packaging – conversion technologies to bridge the transition
