The **8th Biomass & BioEnergy Asia Conference** will be held in **Ho Chi Minh City on November 27-28, 2024**, with a pre-conference cocktail event on the evening of November 26. This conference is a vital gathering for industry stakeholders to engage in realistic discussions about the landscape of biomass supply and utilisation.

The 2-day agenda will focus on crucial topics such as sustainable growth of bioenergy capacity in the region, environmental sustainability requirements of biomass, the role of SE Asian supplies in meeting the demands of North Asian and European markets, and advancements in palm oil biomass supplies and value-added technologies.

Attending this conference is essential for stakeholders looking to stay ahead in the evolving biomass sector. Participants will engage in discussions about the readiness of Southeast Asian biomass for processing technologies like torrefaction, pyrolysis, and carbonization. The event will feature expert speakers and panel discussions that provide insights into market trends and regulatory frameworks, particularly the European Union Deforestation Regulation (EUDR).

Don't miss the chance to be part of this transformative dialogue. Contact hafizah@cmtsp.com.sg for more information.
