5th Global Feed Summit 2025: Navigating Market Dynamics, Technology Transformation, and Sustainability in Feed Supply Chains

Join us for the **5th Global Feed Summit**, taking place on **18-19 February 2025** in **Bangkok, Thailand**. This premier event brings together global leaders, innovators, and key players to discuss the changing market dynamics, technology transformation, and the growing importance of sustainability in the feed supply chain.

As geopolitical tensions and unpredictable weather patterns continue to impact global feed grains and oilseeds markets, the summit will provide critical insights into how these risks are reshaping supply chains. Participants will explore the implications of the EU Green Deal and its effects on Asian feed producers, addressing new sustainability regulations and the opportunities they present.

Sustainability remains a top priority as we focus on creating a deforestation-free feed ingredients supply chain. The summit will explore actionable strategies to decarbonize the food and feed value chain, highlighting how industry leaders are meeting the growing demand for environmentally responsible practices.

Gain valuable insights into feed and additives market trends across India, China, Southeast Asia, and the Middle East, focusing on key sectors such as poultry, aquaculture, dairy, pig, and pet markets. With rapidly evolving consumer demands and regulatory pressures, this is the perfect opportunity to stay ahead of the curve in these critical regions.

Discover the latest innovations in animal nutrition, alternative protein sources, and the role of IoT and AI in improving feed efficiency and sustainability. The 5th Global Feed Summit 2025 is your chance to network, share knowledge, and shape the future of the feed industry in a rapidly changing world. Don't miss it!

Key Highlights:

- Geopolitical & weather risks on feed grains & oilseeds markets
- EU Green deal & its impact on Asian feed producers
- Sustainability & deforestation-free Feed ingredients supply chain
- Feed & additives market trends in **India, China, SE Asia, MEA**
- Focus : **Poultry, Aquaculture, Dairy, Pig & Pet** markets
- Decarbonizing the food & feed value chain
- Latest Innovations in animal nutrition, feed ingredients, alternative protein sources & IOT/AI!
