into our 4th year

Testimonials from our last Low Carbon Fuels Summit:

- Very informative and engaging – Pertamina*
- Good job. Looking forward to the next event – Haldor Topsoe*
- Great at presenting opportunities and challenges for SAF in Asia – JetZero Australia*
- Conference and service were up to expectations – PETRONAS*
- The conference is very informative, and it also pave way to future technology and its awareness to all industries – Petron Corporation*
- Enlightening and enabling call to action – Petron Corporation*
- Insightful presentations, conversations and networking – Rolls-Royce*
- Eye opener towards low carbon fuel activity; regional and global – GEA Westafalia Separator*
- Good – Keppel Infrastructure*
- I learnt a lot in short yet effective event - The International Council on Clean Transportation – ICCT*
- Good platform to hear all of related - Sumitomo SHI/ FW Energy Management*
- Excellent – PT SMART Tbk*
- Great staff and vibe – JFE Engineering*
- An informative and good networking opportunity - Golden Agri International*
- It's an informative event. I hope the event is longer – SGS Group*
- Informative and technical - PT Essa Industries Indonesia*
- Gathering all stakeholders in low carbon fuels in Asia in a single place – PTTEP*

CMT is hosting our 2nd Low Carbon Fuels summit in Singapore on the 20-21st February 2025.

Highlights:

- Latest trends and developments in low carbon fuels markets, with focus on SE Asia, Japan, Australia, China, Europe and more.
- Feedstocks (UCO, POME, agriculture waste, animal fats, MSW & etc) availability, economics, traceability, and supply chain issues.
- Advancements in biofuels such as HVO, biomethane, and biodiesel, and their applications in transportation and power generation.
- Airlines perspective on the future of SAF
- Current and future trends in SAF technologies and policies
- Updates on infrastructure investment and scaling production in biofuels and SAF capacity.
- Comparison & potential of ammonia, methanol, hydrogen, and biofuels as viable alternative marine fuel options.
- CCS and blue hydrogen production
