

OIL & GAS TRADING - ECONOMICS & UNCERTAINTIES

05-06 Feb 2015 / Singapore

This course is practically focused and will review best practice approaches to identify, evaluate, and quantify risk and uncertainty in every day oil and gas market situations. It will highlight the development of pragmatic tools, methods, and understandings for professionals that are applicable to companies of all sizes. The course reviews the relationship between risk and return, and hedging and future markets strategies utilized by the industry.

INSTRUCTOR :
Mr. TOM JAMES, MEI, MA
Co-Founder Navitas Resources

Tom James has been involved in Energy & Commodity markets since 1989 and is an

internationally known business architect, leading market analyst and trading director in the Energy & Commodity markets, having developed his skills and expertise over the years whilst at top tier financial institutions around the world. He has a track record of successfully building trading teams and profitable investment strategies thanks to his deep knowledge and practical broad experience of this sector.

In 2011 he was shortlisted in the top 5 nominees for the Individual Achievement Award by the Energy Institute in London, United Kingdom.

In recognition of his expertise in Energy & Commodity trading, he was selected in 2006 for the Petronet LNG (PLL) Chair Professorship at the University of Petroleum & Energy Studies in Asia, a position he continues to hold.

He is a regular commentator on Market Trends for International News channels and is a weekly contributor to the CNBC energy market analysis review.

You will gain a better understanding of factors that could impact your daily economic trading and infrastructure investment decisions as well as establish a new set of applicable tools to use in your professional career.
